

TRUCK COVERS USA strives to revolutionize the roll cover industry by blazing a new trail in product design, development and production. We are not in business to produce truck covers that represent the industry standard, we are in business to become the industry standard. Our signature product is the American Roll Cover. Our research and design team has taken a proven roll cover with 10+ years of service and created the toughest retractable cover available. We accomplished this amazing feat by listening to customer feedback. As a results-driven company, we listened and responded with a superior product. Now, 8 years later, our product line has evolved into not only The Finest Roll Covers but The Finest Accessories too. Toolboxes, LED cargo lighting, rack systems, cargo management, hitch steps, and more. Let us introduce you to the new Truck Covers USA.
