ABOUT TRUCK COVERS USA

Truck Covers USA strives to revolutionize the roll cover industry by blazing a new trail in product design, development and production. We are not in business to produce truck covers that represent the industry standard, we are in business to become the industry standard.

OUR PRODUCT

Our signature product is The American Roll Cover. With 10 years in the industry and our strong commitment to quality, we have gained a reputation in the market for the very best in product and service to our customers. We accomplished this amazing feat by listening to customer feedback. Our covers have enhanced almost every imaginable truck bed, secured cargos worthy of a king's ransom and survive weather conditions impossible to reproduce in a lab. The feedback we received has been invaluable in creating a truck cover that will more than meet your needs. As a results-driven company, we listened, and we responded with a superior product!
