

**SNUGTOP** is pleased to be a GM Licensee accessory provider to Hummer for its all new H3T truck. SNUGTOP has designed an innovative, high-strength fiber-glass cap for the H3T pickup in the unmistakable style that marks a HUMMER. Reminiscent of the original HUMVEE, but with a classier look, the precision-crafted SNUGTOP Slant Back Cover appears as a natural extension of the cab while providing extra storage for all manner of outdoor gear and gadgets. The Slant Back cover offers these features: FIXED FRONT WINDOW, PROLOCK BACK DOOR LOCK, STANDARD RACK TRACKS (for use with Hummer accessory racks), SNUGRUG HEADLINER (coal mist only), INTEGRATED 3RD BRAKE LIGHT, "LIFT ASSIST" PROPS, DARK TINTED GLASS WINDOW, OEM COLOR MATCHED PAINT

**TRUCK COVERS USA** strives to revolutionize the roll cover industry by blazing a new trail in product design, development and production. We are not in business to produce truck covers that represent the industry standard, we are in business to become the industry standard. Our signature product is the American Roll Cover. Our research and design team has taken a proven roll cover with 10+ years of service and created the toughest retractable cover available. We accomplished this amazing feat by listening to customer feedback. As a results-driven company, we listened and responded with a superior product. Now, 8 years later, our product line has evolved into not only The Finest Roll Covers but The Finest Accessories too. Toolboxes, LED cargo lighting, rack systems, cargo management, hitch steps, and more. Let us introduce you to the new Truck Covers USA.

**TRUXEDO:** Since the introduction of the Original TruXedo in 2000, TruXedo, Inc. has led the industry with new and innovative tonneau cover concepts that emphasize style, quality, durability and functionality. The TruXedo product line continues to grow with the introduction of the TruXedo Deuce, TruXedo Lo Pro QT and TruXport. The TruXedo Deuce is the first and only soft roll-up, hinged tonneau cover combination. The front hinged section allows for quick accessibility to toolboxes and rolls all the way open for hauling large cargo. In 2007, TruXedo redesigned the Lo Pro QT to be an easy 5 minute installation with no tools required. Adjust the tightness of the new QT clamp by twisting the handle and clamp to the side rail. The cover assembly now has spring-loaded header guides - just pull lever back and attach! Easy to remove and reinstall.

**PRODUCT TYPE:** Tonneaus Of All Types  
**MATERIAL TYPE:** Vinyl  
**SHIPPING INFORMATION:** Shipping charges vary by product and location  
**INSTALLATION REQUIREMENTS:** Lo Pro QT - 5 minutes, no tools. Time/requirements for other TruXedo products vary.
