FLEET BROCHURE

THE PREFERRED PRODUCT FOR AMERICA'S FINEST FLEETS!

SUPERIOR TRUCK COVERS

BUILT TO LAST

Tough enough to be used by the U.S. Marine Corp. Our Commercial Grade materials meet today's Industrial needs, and it's GSA Approved, so ordering is easy.

There are a number of roll covers on the market today. All claim to be the best. Only a select few have their own particular strong points while the remainder are made cheap to sell cheap for volume sales. Truck Covers USA manufactures only the one type of roll cover - perfecting the retractable hard roll cover over the years. The American Roll Cover has evolved into the preferred cover for truck owners. Whether it is their personal vehicle, part of their fleet or their work horse, a truck is made to serve its owner as best capable. Our cover is made to do just that. When it comes to retractable Tonneau covers, Truck Covers USA is #1 in this market from both a product and customer service standpoint. Truck Covers USA is the industry leader.

PROUD TO BE A MEMBER OF
SEMA, LTAA & FWA

FEATURES AMERICAN ROLL COVER

BUILT ON EXPERIENCE

We took an already great truck cover and made it better! Our covers have been working for truck owners for over ten years. The American Roll Cover has been successful in all weather conditions, and has been used to protect every conceivable cargo. Your feedback has been invaluable during this process! Our innovative research and design team has been hard at work striving to make the best cover better. Redesigned for the discerning truck owner, driven by consumer feedback, made in the USA - the result is an evolution of perfection!

EASY TO INSTALL

Our roll cover is designed to install in 1 Hour or less. This will minimize down time in an effort to maximize production.

SECURE CLOSURE OF LOAD BODY

Worry free security! The secure locking system ensures that the cargo you leave in the truck bed will be in the truck bed when you need it.

STRONG, ROBUST STRUCTURE

Our designers wanted a cover that was strong enough to meet your needs. The result is a strong, yet lightweight, aluminum cover with double walled sections.

SUPERIOR STYLE

Wait until you see our cover on your truck! The high quality, textured powder coating and low-profile lid gives our cover a 'notch above the rest' look.

EASY TO OPERATE

Save your efforts for the task at hand! The retractable cover is tension driven and expertly adjusted to allow for ease when opening and closing.

MINIMAL SERVICING REQUIRED

Keep the cover clean and it will last - it's as simple as that!

San Diego Sheriff's Dept. F-150

FEATURES AMERICAN ROLL COVER (CONT.)

TEXTURED POWDER COATED FINISH

Our textured powder coating makes our cover more scratch resistant than any other. Today's pickup trucks are stronger and more luxurious than they used to be. Our special finish is designed to add strength when you work and looks when you play.

2-YEAR WARRANTY

We wanted to show you how confident we are in our cover with our full 2-Year Warranty. You will not find this level of product confidence anywhere else.

KEYLESS ENTRY - QUICK RELEASE HANDLE

Our Keyless Entry option provides very convenient access to your load. Remember, this is an add-on option and not standard equipment - so be sure to ask for it. Our Keyless Entry release handle enables you to open your cover simply by releasing your tailgate and pulling on the custom-made molded plastic handle. It gives you the keyless freedom you may demand from time to time. Customers asked - we responded!

WEATHER RESISTANT

While no one can claim to make a 100% waterproof retractable tonneau cover - our extra wide side rail seals and 4-way drainage system improve the weather seal between our cover and your truck bed like none other.

CANISTER LID

Like the cover sections, the lid is constructed of double sectioned, lightweight aluminum and finished with our textured powder coating. The result is a low-profile lid with unmatched strength and durability.

STRONGEST CANISTER

Our canister is constructed of heavy-duty galvanized sheet metal. It might be the smallest on the market (8x8 inches) but it's the strongest. The sides of the canister and mounting brackets are a one-piece construction that reduces flex, increases strength and cuts down on installation time.

LOCKS EVERY 12 INCHES

We know your truck cover needs are not always as simple as opened or closed. Our ingenious locking system provides an automatic stop and lock point every 12 inches!

BOTTOM LINE

The American Roll Cover is the toughest, best-looking, retractable aluminum cover available!

**AMERICA'S FINEST COVERED BY AMERICA'S BEST
THERE IS NO BETTER CHOICE FOR YOUR FLEET!**

PRODUCT AMERICAN WORK COVER

The American Work Cover, an industry first Toolbox & Roll Cover combination, combines two essential products to create the **ideal work truck combination** for **superior security, strength & style**. U.S. Marine Corp F-250 Toolbox Cover

PRODUCT AMERICAN X-BOX

TRUCK COVERS USA INTRODUCES YOU TO THE AMERICAN X-BOX. IT'S NOT JUST ANOTHER TOOLBOX.

With new innovative features & products, Truck Covers USA sets itself apart from the competition. Spray-on polyurethane industrial coating is added to the Truck Covers USA American Work Cover Toolbox to give the ultimate in protection via the American X-Box. We have added the protection of an industrial coating that permanently bonds to the top-of-the-line Toolbox inside and out, providing a weather-tight seal to protect against extreme heat, cold, moisture, abrasion and rust. The increased tensile strength rating makes the American X-Box resistant to scratches, gouges and punctures. The American X-Box enhances the look of any work truck with convenience and ease of use, while providing protection and security like no other. A Toolbox & Roll Cover that really works!

- Heavy-Duty Galvanized Sheet Metal Sectioned Toolbox sprayed inside and out with the protection of a polyurethane industrial coating for added protection from extreme heat, cold, moisture, abrasion and rust, while providing a weather-tight seal.
- Stylish Design & Superior Construction.
- Durable & Tough - Rust Preventative Properties.
- 2 Products in 1 - Multifunctional with Unmatched Security.
- Enhances the look of any Work Truck with Convenience, Style & Ease of Use.
- Space Saving Design.
- OEM Grade Locking Mechanisms which are e-treated for more wear resistance. Lock provides override if outside paddle should be locked. Molded rubber gasket for flange of housing provides resistance to water and dust infiltration.
- One key fits both Toolbox & Roll Cover.
