# MUCH MORE THAN JUST TRUCK COVERS!

**T**ruck Covers USA is dedicated to building superior truck covers using tomorrow's technology and innovation while competing at today's prices. They insist on a highly trained staff, cutting edge design, state-of-the-art materials and undivided attention to the smallest details. Their success is measured by customer satisfaction, and their decisions are driven by both consumer feedback and their passion for excellence.

Truck Covers USA strives to revolutionize the roll cover industry by blazing a new trail in product design, development and production. They are not in business to produce truck covers that represent the industry standard, they are in business to become the industry standard.

Their signature product is the American Roll Cover. Their research and design team has taken a proven roll cover with 10 plus years of service and created the toughest aluminum retractable cover available. They accomplished this amazing feat by listening to customer feedback. Their covers have enhanced almost every imaginable truck bed, secured cargo worthy of a king's ransom and survived weather conditions impossible to

reproduce in a lab. The feedback they have received has been invaluable in creating a truck cover that will more than meet your needs. As a results-driven company, they listened and responded with a superior product.

Now, eight years later, their product line has evolved into not only The Finest Roll Covers on Earth but The Finest Accessories on Earth as well. Let us introduce you to the continuing Truck Covers USA line of products:

## American Work Cover

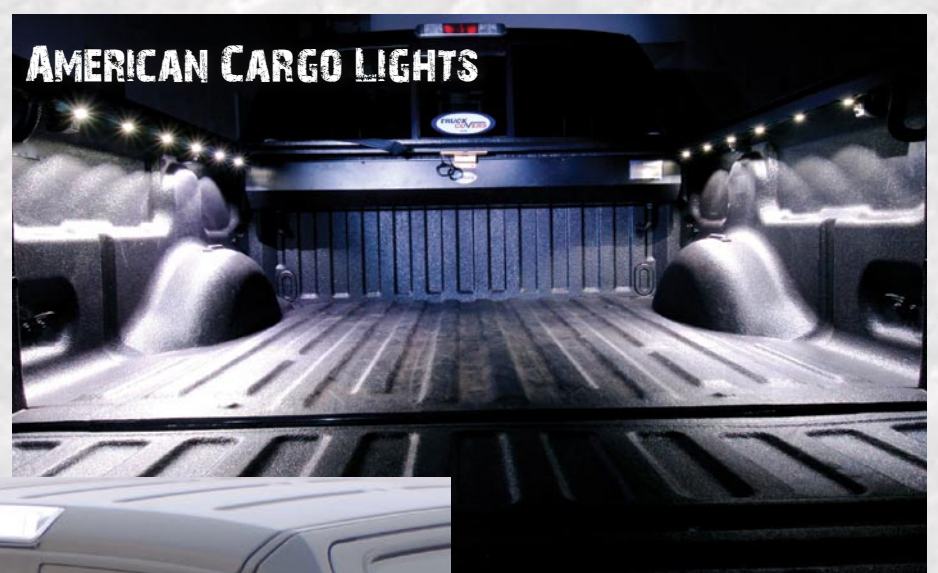

After seeing the number of requests rapidly growing for the American Roll Cover to be modified to fit a particular truck bed along with an existing toolbox and realizing the niche in the market – research and development began and the American Work Cover (toolbox & roll cover combo) was born. Two much needed products are now combined for the ideal work truck combination that makes a marriage of the highest product qualities. This multi-functional product was engineered & designed with the work truck and style in mind – a must have for any work truck. Product features include not only the superior construction of the American Roll Cover itself, but a heavy-duty

galvanized sheet metal sectioned toolbox; rust preventative properties; space saving design; OEM grade locking mechanism like no other; cargo lighting options, power actuator options & 2 sliding trays. The American Work Cover enhances the look of any work truck with convenience and ease of use. A truck cover that really works!

## American Cargo Lights

Truck Covers USA, known for providing the highest quality truck accessory products on the market, began extensive research and development in early 2006 of its new American Cargo Lights. The American Cargo Lights are the most sophisticated and unique cargo

lighting system available. Lined with LEDs, the subtle and stylish American Cargo Lights strip is a must have for all truck beds, toolboxes and other cargo unit structures. Whether connected directly into your vehicle wiring system, operated by its unique battery system or remote – these are the lights of lights – the American Cargo Lights – For Work or For Play – Stylish and Sensible. Elegant and low profile – you won't believe this subtle yet spectacular lighting system. Truck Covers USA, with the latest technology, has produced this state-of-the-art cargo lighting system using Light-By-Wire technology from 3M. Truck Covers USA truly believes this new lighting solutions product will

revolutionize cargo lighting in the industry. American Cargo Lights - Another innovative & superior quality product from Truck Covers USA.

## American Snap-Loc

The most versatile cargo control and restraint system ever made. Whether you're tying down a motorcycle, ATV, boxes, furniture, lumber, equipment, ladders and more – American Snap-Loc products are the next generation of quality industrial strength anchor points and strap systems that will change the way you secure cargo forever.

Just a few of the possible uses for genuine American Snap-Loc products from Truck Covers USA include:

- Pick-Up Truck Beds and Tailgates
- Flat Bed Truck Beds
- Service Body Trucks
- SUV & Van Roofs/Racks
- Trailers & RVs

American Snap-Loc products will never come loose accidentally – they are a positive locking system. Industrial strength rated – having the highest strength rating for a cargo control system. An International New Product Award Winner at SEMA 2006. Truck Covers USA's American Snap-Loc products are a complete system to meet every cargo management need. The only cargo management system of its kind available on the market.

#### American Spring-Step

The American Spring-Step was designed to be appreciated and used by men and women alike. An attractive and practical solution to accessing the back and sides of SUVs, Trucks, RVs and Service Vehicles. Pushed open or closed with the toe of your shoe, the patent pending over center spring system holds its position. Super Strong; Tested to 600lbs; Billet Aircraft Aluminum; Unique, Simple & Stylish. The precision manufactured American Spring Step is brought to life with beautiful inserts, making it a must have for all. Select from the Truck Covers USA logo, Patriotic Series and much more – or customize for your business, club or other organization.

#### American Tail-Mate

Eliminate the weight off your tailgate. The American Tail-Mate can support payloads of up to 1,000lbs and 51" wide with its sturdy construction and robust support beam. Ideal for transporting lumber and other oversize materials by extending your truck's bed length. Designed for maximum ground clearance. Adjustable to fit most full size trucks, SUVs and Jeeps with any Class 3 hitch receiver. Quick and easy to assemble, install and adjust – two piece construction makes it easy to store.

accommodate any model tailgate with a precise and snug fit. Conforms to fit any gap – large or small. Provides added security from the elements – preventing dust, rain and snow from entering your truck bed. Simple to install.

#### American Wonder Auto Cloth

The Ultimate Cloth for your ride! Super absorbent; machine washable; long-lasting. Holds 12 times its weight in water. Lint-free; Scratch free. Super soft and gentle on all surfaces. Love

#### American Rack System

Designed and engineered for all sports enthusiasts, the American Rack System is a perfect fit for full size trucks & SUVs. The American Rack System is incredibly strong and aesthetically pleasing. The infinitely adjustable rail accessory system allows multiple attachment scenarios & works with sports attachment accessories from other manufacturers such as Yakima and Thule. It is easily adaptable for off road lights, tires, ramps & many other accessories. Its low profile design means no "top hat" look on your vehicle while allowing for greater carrying capacity. The American Rack System is the most sophisticated rack system available.

#### American Tailgate Seal

The American Tailgate Seal has been engineered and designed to

your car! The American Wonder Auto Cloth comes in 2 sizes, large and small. It is the only Auto Cloth you will ever need for your car – inside and out. Wash your car with it – wring it out easily – then dry your car with the same cloth! Dries your car in less than 5 minutes. Removes pet hair, lint, dirt and dust from automotive upholstery and carpets. Ideal for windows. 100% Biodegradable; Resistant to oils, grease and detergents. More durable than any other cleaning or drying cloth or material. Does not tear! It is the first choice of auto-detailing enthusiasts. Comes in its own storage container. The Finest Cloth you will ever use. Throw away that chamois and move on to the American WonderAuto Cloth!

As you can see, Truck Covers USA is much more than just truck covers. With new innovative features & products, Truck Covers USA sets itself apart from the competition.
